This seminar and workshop are designed for veterinary practitioners with some basic knowledge in diagnostic cytology who strive to expand their skills in this diagnostic field.

The main topics of this 9.5 hours symposium will be the evaluation of blood films, the cytology of hematopoetic neoplasms as well as the evaluation of bronchoalveolar lavages, of cerebrospinal fluids and of effusions.

Lectures and video-microscopy will be the skills to illustrate general principles of cytologic, the interpretation of a wide range of inflammatory and neoplastic lesions and to go together through interesting practical cases.

The lectures are held in English.

The registration is limited to 50 participants.
