UVOD

Tretji zvezek Rodovniše knjige za angleške polnokrvne konje, zrejene v Sloveniji vsebuje podatke o reji konj te pasme, od leta 1993, do vključno 2007. Reja angleških polnokrvnih konj temelji na maloštevilni populaciji plemenskih živali, ki so bile sprva vse uvožene. Pričakujemo, da bo v prihodosti vse večje število doma zrejenih konj te pasme vplivalo na povečanje števila plemenskih živali in s tem razcvet reje teh plemenitih konj v našem prostoru.

Rodovniška knjiga za angleške polnokrvne konje (Slovenian Stud Book – SSB) je bila ustanovljena na pobudo, še vedno maloštevilnih rejcev, leta 1993. Vse od ustanovitve rodovniške knjige je Inštitut za rejo in zdravstveno varstvo Veterinarske fakultete (Slovenian Stud Book Authority – SSBA) vodil matično knjigovodstvo v skladu s standardi usklajenimi z International Stud Book Committee (ISBC).

SSBA bo tudi v prihodnje delovala v skladu z navodili, odločitvami in zahtevami ISBC, ter aktivno sodelovala v delu EMSBLC (European and Mediterranean Stud Book Liaison Committee).

Prepričani smo, da je mednarodno priznanje slovenske rodovniške knjige za angleške polnokrvne konje spodbudilo zanimanje za rejo polnokrvnih konj v Sloveniji in neposredno vplivalo na izboljšanje kvalitete pri nas zrejenih živali.

FOREWORD

Volume three of the Slovenian Stud Book of Thoroughbred horses covers the years 1993 to 2007 inclusive. Thoroughbred breeding in Slovenia is founded on a relatively small population of imported breeding stock. In future we expect that home-bred fillies and colts will be registered for breeding in increasing numbers with a consequent effect on the strength and prosperity of Thoroughbred breeding in our country.

The Slovenian Stud Book Authority (SSBA) has since its inception (and this will continue) liaised closely with Thoroughbred breeders in Slovenia which has assisted in ensuring that the recording of breeding results has been undertaken to the International Stud Book Committee (ISBC) agreed standards.

The SSBA will implement all future instructions, decisions and requirements of the ISBC and be an active participant in meetings of the European and Mediterranean Stud Book Liaison Committee.

The approved status of the Slovenian Stud Book of Thoroughbred Horses has stimulated interest in breeding thoroughbreds in Slovenia with consequent improvement in the resident breeding stock.

PRAVILNIK O VODENJU RODOVNIŠKE KNJIGE ZA KONJE ANGLEŠKE POLNOKRVNE PASME SLOVENSKE REJE

1 UVOD

1.1 Za vodenje rodovniške knjige za konje angleške polnokrvne pasme (v nadaljnjem tekstu SSB - Slovenian Stud Book), je s strani Ministrstva za kmetijstvo, gozdarstvo in prehrano pooblaščen DPO VF (v nadaljnjem tekstu SSBA – Slovenian Stud Book Authority), ki samostojno in neodvisno od rejcev vzdržuje vodi rodovniško knjigo, zagotavlja izvajanje predpisanih pravil in redno izdaja SSB kot strokovno publikacijo.

1.2 SSB vsebuje:

- a Indeks vseh konj, ki so vpisani v SSB
- b Seznam plemenskih kobil in naraščaja
- c Seznam plemenskih žrebcev
- d Seznam uvoženih plemenskih kobil in žrebcev
- e Statistični pregled

Nadaljnji izvodi SSB bodo dopolnjeni s:

- f Seznam izvoženih konj
- g Seznam imen konj, ki so bili v prejšnji izdaji SSB vpisani brez imena
- h Dodatki in popravki

1.3 Seznam uvoženih konj, ki niso registrirani kot plemenske živali in ga vodi RSS je sestavni del SSB.

1.4 Vse živali vpisane v SSB so, kot to zahteva ISBC (International Stud Book Committee), zavedene pod življenjsko številko, ki se uporablja v vseh evidencah v reji, športu in prometu.

1.5 Pri vodenju rodovniške knjige SSBA upošteva vsa navodila in sklepe I.S.B.C. kot to predpisuje Mednarodni sporazum o reji in galopskih dirkah (International Agreement on Breeding and Racing) v členih 3.,4.,12.,13., 14. in 15.

2 VPIS V SSB

2.1 Angleški polnokrvni konj je konj, ki je vpisan v katerokoli rodovniško knjigo za angleške polnokrvne konje, ki je v času njegovega vpisa priznana s strani ISBC.

2.2 V SSB so lahko vpisani konji angleške polnokrvne pasme, potomci staršev:

- a ki sta bila vpisana v rodovniško knjigo priznana s strani ISBC,
- b od katerih je bil eden ali oba prevedena v rodovniško knjigo priznana s strani ISBC iz NTB registra.

2.3 Iz NTB registra je lahko preveden v rodovniško knjigo priznana s strani ISBC le konj:

- a za katerega je mogoče zanesljivo dokazati osem zaporednih parjen z angleškim polnokrvnim konjem (vključno s parjenjem, katerega rezultat je),
 - b katerega poreklo po polnokrvni in nepolnokrvni strani izkazuje dosežke, ki opravičujejo njegov vpis v rodovniško knjigo za angleške polnokrvne konje,
 - c katerega prevedba je odobrena s soglasjem ISBC.
- 2.4 Ne glede na to da konj izpolnjuje navedene pogoje lahko SSBA njegov vpis v rodovniško knjigo za angleške polnokrvne konje zavrne, vendar je zavrnitev mogoča le, če jo s soglasno odločitvijo potrdi ISBC.

3 ISTOVETNOST KONJA - IDENTITETA

3.1 Preden sta katerikoli žrebec ali kobila vpisana v SSB kot plemenska žival, je potrebno ugotoviti - potrditi njegovo/njeno istovetnost.

a Lastnik živali mora vložiti vlogo za vpis žrebca ali kobile, v seznam plemenskih žrebcev ali kobil, v kateri so navedeni: ime živali, pod katerim je bila vpisana v rodovniško knjigo, življenjska številka, številka elektronskega odzivnika, barva, starost, poreklo, lastnik in vsi znani podatki o dotedanji usodi živali.

b SSBA preveri barvo in znamenja živali.

c Opravi se molekularno genetsko preiskavo lastnega vzorca krvi (v nadaljnjem besedilu - preiskava na DNK tip). Vzorec krvi za preiskavo odvzame pooblaščen veterinar, preiskava pa se opravi v pooblaščenem laboratoriju. V primeru, da imajo plemenske kobile že opravljeno preiskavo na DNK tip, se pri njih ta opravi le ob pojavu suma v verodostojnost predložene dokumentacije.

3.2 V primeru, ko gre za uvoženo žival, mora SBA države, iz katere žival prihaja posredovati SSBA Izvozno potrdilo (Export certifikat) in poročilo z rezultati opravljene preiskave na DNK tip ali krvne skupine. Izvozno potrdilo SSBA trajno (oziroma do ponovnega izvoza živali) deponira. Podatki, zavedeni v Identifikacijski dokument – Passport (v nadaljnjem besedilu ID) ki spremlja žival morajo biti istovetni podatkom, zavedenim v Izvozno potrdilo.

3.3 Za plemenske živali, pripeljane v Slovenijo za čas, krajši od 9 mesecev, je potrebno predložiti ID, ki ga je izdala SBA, ki je prva registrirala žival in ga je za namen bivanja v Sloveniji z vpisom v ustrežno rubriko uradno potrdila pristojna organizacija države iz katere žival prihaja.

3.4 Žival ne more biti registrirana kot plemenska po smrti, razen na osnovi presoje okoliščin s strani SSBA, a le v primeru, ko je bila pred smrtjo živali opravljena preiskava njene krvi na DNK tip na predpisan način.

4 LASTNIŠTVO

4.1 Za vsakega žrebca ali kobilu, ki sta vpisana v seznam plemenskih živali je potrebno SSBA prijaviti vsako spremembo lastništva na predpisanem obrazcu, podpisanem s strani prodajalca in kupca. Sprememba lastništvamora biti vpisana v ID.

4.2 Ta pogoj je potrebno izpolniti zaradi tekočega vodenja evidence, ni pa odločilno za nadaljnje postopke v zvezi z vpisom potomstva plemenske živali v SSB.

4.3 Za vpis žrebeta v ustrezen seznam se zahtevajo in uporabijo podatki o fizični ali pravni osebi, ki je bila v času žrebitve prijavljena pri SSBA kot lastnik kobile, torej podatki o rejcu. Podatki o lastništvu prijavljeni v SSBA in podatki o rejcu v Poročilu o žrebitvi (vloži za vpis žrebeta v SSB) morajo biti enaki.

5 VPIS - REGISTRACIJA ŽREBET

5.1 Redni postopek

5.1.1 Za vpis - registracijo potomstva plemenske kobile v ustrezen seznam SSB, mora rejec izpolniti naslednje pogoje:

a Predložiti SSBA uradno Potrdilo o pripustu z vpisanim:

- imenom in življenjsko številko plemenjaka,
- imenom in življenjsko številko kobile,
- datumi prvega in zadnjega pripusta v pretekli plemenilni sezoni,
- vpisano številko seznama pripuščenih kobil,
- izjavo, ki jo podpiše lastnik ali njegov pooblaščenec, da so podatki, vpisani v Potrdilo o pripustu resnični, da je bila kobila zabrejena v naravnem pripustu in da žrebe ni produkt umetne osemenitve, prenosa jajčne celice ali zarodka, kloniranja ali kakršnihkoli drugih posegov v dednino.

b Ob prvem pripustu je lastnik plemenjaka dolžan preveriti identiteto kobile. Za resničnost vseh navedb v Potrdilu o pripustu in preverjanje identitete ob prvem pripustu jamči lastnik plemenjaka s podpisom. Lastnik plemenjaka obenem tudi potrdi, da je bila kobila oplojena po naravnem pripustu in da žrebe ni produkt umetne osemenitve, prenosa jajčne celice ali zarodka, kloniranja ali kakršnihkoli drugih posegov v dednino.

c Če je bila kobila pripuščena pod dva ali več plemenjakov se predloži tudi potrdila o teh pripustih.

d Predložiti podpisano Poročilo o žrebitvi najkasneje v štirih tednih (28 dneh) po žrebitvi, v katerem so vpisani:

- ime in življenjska številka očeta,
- ime in življenjska številka matere,
- natančen datum rojstva,
- podatki o spolu,
- podatki o barvi,
- podatki o rejcu,
- država rojstva ter
- izjavo lastnika kobile ali njegovega pooblaščenca, ki potrjuje da je bila kobila oplojena po naravnem pripustu in da žrebe ni produkt umetne osemenitve, prenosa jajčne celice ali zarodka, kloniranja ali kakršnihkoli drugih posegov v

dednino. V primeru, ko gre za dvojčke, je to potrebno v dokumentu posebej označiti.

e Poročilo o žrebitvi je potrebno dostaviti tudi v primeru, če je kobila ostala jalova, če je resorbirala ali zvrгла plod, če je bilo žrebe rojeno mrtvo, če je žrebe poginilo, ali pa, če je poginila kobila - z označeno ustrežno rubriko tiskovine. Poročilo o žrebitvi se dostavi tudi v primeru, ko je bila kobila pripuščena pod plemenjaka druge pasme. V primeru, da rejec poročila ne predloži, bo v SSB v rubriki o potomstvu kobile za tekoče leto vpis: brez povratne informacije (no return).

f Popis žrebeta opravi na predpisanem obrazcu – Zapisnik o pregledu žrebeta, na katerem so vpisani:

- ime in življenjska številka očeta,
- ime in življenjska številka matere,
- natančen datum rojstva,
- podatki o spolu,
- podatki o barvi,
- trije predlogi rejca za ime žrebeta,
- podatki o rejcu,
- država rojstva,

s strani SSBA preglednik, ki vpis potrdi z navedbo dneva, podpisom in žigom. Opis živali mora vsebovati najmanj pet značilnih znamenj (od teh vsaj tri dlačne vrtince). Opis živali v potrdilu o istovetnosti mora biti opisen (vpis z velikimi tiskanimi črkami) in grafičen - oris.

TA OPIS MORA BITI OPRAVLJEN, PREDEN ŽREBE DOPOLNI ŠTIRI MESECE A ČIM BLIŽE TEMU TERMINU.

g Preverjanje porekla se opravi na osnovi pregleda vzorca krvi žrebeta in če je to potrebno tudi matere in očeta. Odvzem vzorcev krvi opravi pristojni veterinar, preiskava pa mora biti opravljena v pooblaščenem laboratoriju. Na osnovi teh vzorcev se preveri DNK tip žrebeta ter starševstvo žrebca in kobile. Vse rezultate preiskav dostavi pooblaščen laboratorij SSBA, ki dokumente arhivira. Dokumenti niso dostopni javnosti. V primeru izvoza živali, jih SSBA skupaj z Izvoznim potrdilom posreduje SBA države uvoznice.

h Za žrebeta rojena v letu 2006 in kasneje je obvezna dodatna označitev z implantacijo elektronskega odzivnika. Dodatno označitev opravi pooblaščen preglednik ob identifikacijskem pregledu v sredini vratnega grebena (v lig. Nuchae) z leve strani.

i Na osnovi Zapisnika o pregledu žrebeta izstavi SSBA ID, v katerem se potrdi preverjanje starševstva in, z nalepko s črtno kodo dodatna označitev z el. odzivnikom.

j Rejec je dolžan plačati predpisano pristojbino za registracijo žrebeta.

k Določila tega člena veljajo za žrebeta, ki se vpisujejo v SSB v letu rojstva.

5.2 Naknadni vpis žrebeta:

5.2.1 Za vpis žrebet, za katera postopek registracije ni bil opravljen v letu rojstva zaradi opustitve prijave žrebitve ali nepopolne dokumentacije, mora rejec izpolniti še naslednje pogoje:

a Istovetnost žrebeta mora biti nedvomno potrjena z izjavo - poročilom vsaj dveh neodvisnih strank (veterinar, s strani SSBA pooblaščen osebe)
Opravi se odvzem vzorcev krvi žrebeta, njegove matere in očeta skupaj s podatki o osnovni dlačni barvi in znamenjih, za preverjanje starševstva s predpisanimi DNK preiskavami.

b Rejec mora vplačati pristojbino določeno za naknadni vpis žrebeta.

5.2.2 ŽIVALI, KI SO V TRENUTKU, KO JE BILA VLOŽENA ZAHTEVA ZA NAKNADNI VPIS, STARE ŠTIRI LETA ALI VEČ, NI MOGOČE VPISATI V SSB.

5.3 Nepopolni zahtevki za registracijo žrebata

5.3.1 Nepopolne zahtevke za registracijo žrebata SSBA zavrne in jih vrne rejcu v dopolnitev.

5.3.2 V takih primerih se za vpis žrebata uveljavlja pristojbina, ki velja na dan vložitve dopolnjenega zahtevka za registracijo.

5.4 Izbira imena

5.4.1 Vpis imen opravi SSBA po postopku, ki ga predpisuje 14. Člen IABR.

5.4.2 SSBA hrani seznam zaščitenih imen.

5.4.3 Rejec ob vlogi zahtevka za registracijo v Potrdilu o istovetnosti žrebata navede tri predloge imena, ki se začnejo z začetno črko imena matere, pravico do dokončno izbire imena pa ima RSS.

5.4.4 Potrditi ni mogoče:

a Imen, ki so na seznamu mednarodno zaščitenih imen, v skladu s 14 členom IABR.

b Imen, ki jih tvori več kot 18 mest, vključno z znaki in presledki.

c Imen javnih osebnosti, brez izrecnega dovoljenja teh osebnosti ali njihovih družin.

d Imen, ki se končujejo s številkami.

e Imen, katerih del so inicialke ali znamenja, presledki ali kakršnakoli ločila,

f Imen, katerih pomen, izgovarjava ali črkovanje se lahko dojame kot vulgarno ali žaljivo za posameznike ali etnične, politične ali verske skupnosti.

g Če se črkujejo enako, ali če se izgovarjajo enako ali podobno kot zaščiteni imena ali imena konj, ki so manj kot deset (10) let starejši od konja, ki naj bi bil vpisan pod tem imenom.

h Če se ne pričnejo s črkovnim znakom.

5.4.5 Sprejeto ime je vpisano v konjev ID.

6 METODE RAZMNOŽEVANJA

6.1 Žrebe je lahko registrirano le:

a Če je produkt naravnega pripusta – fizični zaskok kobile s penetracijo penisa in ejakulacijo semena v rodila kobile.

b Če je rojeno po normalni dobi brejosti, kobili, ki je bila zabrejena na predpisan način.

6.2 Žrebet, ki so produkt osemenjevanja, prenosa jajčne celice ali zarodka, kloniranja ali kakršnihkoli drugih posegov v dednino ni mogoče registrirati.

7 ZAVRNITEV REGISTRACIJE

Ne glede na popoln zahtevek za registracijo žrebeta in rezultate preiskave krvi na DNK tip, ki potrdijo navedene podatke o poreklu, se registracija žrebeta lahko zavrne, če barva žrebeta ni v skladu z barvo staršev, ali če navedena doba brejosti značilno odstopa od splošno uveljavljenih mejnih rokov.

8 IDENTIFIKACIJSKI DOKUMENT - PASPORT

8.1 Identifikacijski dokument se na predpisan način izda vsem konjem, vpisanim v SSB. Identifikacijski dokument je osnovni dokument za preverjanje istovetnosti živali. V Identifikacijskem dokumentu so označena in opisana značilna znamenja konja, vpisani podatki o rejcu, lastniku in konju, potrjeno preverjanje starševstva s predpisanimi preiskavami DNK in dodatna označitev z el. odzivnikom z nalepko s črtno kodo, ter podatki o opravljenih zaščitnih cepljenjih in laboratorijskih preiskavah, preiskavah na prepovedane farmakološke pripravke in zdravljenjih kot to določajo predpisi SSBA.

8.2 Identifikacijski dokument potrjuje izvor in poreklo živali, ni pa izkaz o lastništvu. Vpisi v ID se sicer načelno obravnavajo kot resnični vendar njihove verodostojnosti in točnosti v oddelkih, v katere jih ne vnašajo s strani SBA pooblaščen osebe ni mogoče garantirati.

8.3 Identifikacijski dokument je treba vrniti izdajatelju - SSBA, kadarkoli ta to zahteva.

8.4 V Identifikacijski dokument žrebcev in kobil, ki so vpisane v ustrezen register plemenskih živali, se ta registracija potrdi z uradnim zaznamkom, ki ga opravi SSBA v ustrezni rubriki dokumenta.

8.5 Kakršen koli vpis podatkov ali popravke lahko opravijo samo pooblaščen uradne osebe, ki to potrdijo s podpisom in žigom.

8.6 Registrirane plemenske kobile se lahko pripustijo šele, ko lastnik kobile predloži lastniku plemenjaka veljaven Identifikacijski dokument. Lastnik plemenjaka je pred pripustom dolžan preveriti identiteto kobile, za kar jamči s podpisom na Potrdilu o pripustu.

8.7 Ob spremembi lastništva se Identifikacijski dokument obvezno predloži SSBA, ki je edina pristojna za vpis novega lastnika.

8.8 SSBA ne upošteva zahtev za registracijo potomstva plemenskih kobil, dokler dejanski lastnik kobile ni na predpisan način vpisan v Identifikacijski dokument.

8.9 V primeru, ko konj, na katerega se Identifikacijski dokument nanaša, pridobi znamenja, mora lastnik obvestiti o tem SSBA, ki določi nadaljnji postopek za dopolnitev opisa konja.

9 EVIDENCA PRIPUSTOV

9.1 SSBA izstavi za vsakega priznanega plemenjaka lastniku le tega tiskovine:

a Seznam pripuščenih kobil

b Potrdil o pripustu

9.2 Lastnik plemenjaka je dolžan vpisati v seznam pripuščenih kobil vse pripuste vseh kobil z vsemi zahtevanimi podatki.

a Če je kobila v isti plemenilni sezoni pripuščena pod dva ali več plemenjakov, mora biti to navedeno v rubriki "opombe", kobila mora biti vpisana v seznamu pripuščenih kobil vseh plemenjakov:

b Po končanem pripustu je lastnik plemenjaka dolžan lastniku kobile vročiti pravilno izpolnjeno Potrdilo o pripustu. Če je kobila v isti plemenilni sezoni pripuščena pod dva ali več plemenjakov mora biti vpisana v seznamu pripuščenih kobil vseh plemenjakov, izdana morajo biti vsa pripadajoča Potrdila o pripustu.

9.3 Lastnik plemenjaka mora izstavit Potrdilo o pripustu za vsako kobilo, pripuščeno pod njegovega žrebca.

9.4 Po končani plemenilni sezoni mora lastnik plemenjaka najkasneje do 30. novembra v tekočem letu dostaviti pravilno izpolnjen Seznam pripuščenih kobil in izpolnjene kopije Potrdil o pripustu, kot tudi preostala – neizstavljena Potrdila o pripustu.

9.5 Če lastnik plemenjaka ne upošteva določil tega pravilnika o vodenju evidence pripustov in ostalih obveznostih, njegov žrebec (žrebci) v naslednji plemenilni sezoni ne more biti več priznan kot plemenjak.

10 IZVOZ

Preden je konj izvožen, mora biti njegov Identifikacijski dokument dostavljen SSBA, ki v ustrezno rubriko vpiše namen in trajanje izvoza in potrdi izvoz. Če naj bi bil konj izvožen za stalno, izstavi SSBA na zahtevo SBA države uvoznice Izvozno potrdilo s preverjenim potrdilom o istovetnosti in poročilo z rezultati opravljene preiskave na DNK tip ali krvne skupine.

11 MOLEKULARNO GENETSKE PREISKAVE

Molekularno genetske preiskave za preverjanje porekla opravi le pooblaščen laboratorij, ki je član ISAG.

12 PUBLIKACIJE

Rodovniška knjiga za angleške polnokrvne konje slovenske reje se izdaja vsaka štiri leta, z vsakoletnimi dopolnili.

RULES AND REQUIREMENTS OF THE SLOVENIAN STUD BOOK OF THOROUGHBRED HORSES

1. GENERAL PROVISIONS

1.1 The Slovenian Stud Book (SSB) is the record of thoroughbred breeding in Slovenia. The Slovenian Stud Book Authority (SSBA) which is established under the control of Ministry of Agriculture, Forestry and Nutrition and therefore independent from breeders has responsibility for the SSB, its rules and ensuring its regular publication.

1.2 The SSB consists of:

- a. Index of all horses contained in the SSB.
- b. List of Broodmares.
- c. List of Stallions.
- d. List of imported Broodmares and Stallions.
- e. Statistical overview.

and in future Volumes:

- f. List of exported horses.
- g. List of names for those horses which were unnamed in the previous volume of the SSB.
- h. Appendices and corrections.

1.3 A list of imported horses which are not used as breeding stock is also maintained by the SSBA but is not included within the SSB.

1.4 All animals entered in the SSB have a life number in accordance with International Stud Book Committee (ISBC) requirements.

1.5 The SSBA accepts and implements all instructions and decisions of the ISBC heeds to all instructions and decrees of the ISBC and complies with the International Agreement on Breeding and Racing Articles 3, 4, 12, 13,14 and 15.

2 CONDITIONS OF ENTRY TO THE SSB

2.1 A Thoroughbred is a horse which is recorded in a Thoroughbred Stud Book approved by the International Stud Book Committee at the time of its official recording.

2.2 To be eligible to be registered in the SSB the following qualifications must be met:

- a the horse must be product of a mating between a sire and a dam both of which are recorded in an approved Thoroughbred studbook or
- b either or both of the parents must have been promoted from a Non-Thoroughbred register.

2.3 The horse may be promoted from a Non-Thoroughbred register only when the following conditions are all satisfied:

a the horse can prove satisfactorily eight thoroughbred crosses consecutively including the cross of which it is the progeny,

b the horse's pedigree can show such performances in races open to Thoroughbred, in both the Thoroughbred and non-Thoroughbred sections of its pedigree as to warrant its assimilation with thoroughbreds.

c The promotion is approved by unanimous agreement of the ISBC.

2.4 Notwithstanding that a horse may qualify under above Conditions, the SSBA may have the right to refuse to record it in the SSB, but such refusal shall not be effective unless it is confirmed by the unanimous decision of the ISBC.

3. IDENTITY

3.1 Before any Stallion or Mare can be registered in the SSB as breeding stock the animal's identity must be established by:

a the completion by the animal's owner of the appropriate Stallion or Broodmare Registration Form, recording the animal's registered name, life number, microchip number, colour, age, pedigree, present owner, and previous history so far as known,

b the provision of current markings of the animal, taken by an SSBA official,

c establishing the DNA type of the animal. In respect of all animals, this will require the provision of a current blood sample taken by a SBA official, the analysis being done in a certified laboratory. The only exception to this will apply to Broodmares whose DNA type has previously been officially established, unless for reasons of doubt a current blood sample from the Broodmare is considered necessary.

3.2 In the case of imported animals the Export Certificate identifying the animal and DNA profile or blood type must be received from the Stud Book Authority (SBA) of the country from which the animal is imported. The SSBA holds the Export Certificate until such time as the Broodmare or Stallion is re-exported. A current identity certificate - Passport is required for checking against the Export Certificate.

3.3 For imported breeding and non-racing horses visiting Slovenia for less than nine months the requirement for the provision of an Export Certificate may be replaced by the lodgement of the animal's identity documents, currently endorsed by the relevant authority of the country from which it has travelled, issued by the SBA with which it was registered at birth.

3.4 No animal may be registered as breeding stock retrospectively, after it has died, except at the discretion of the SSBA and only if the animal's DNA type has been officially established prior to the animal's death.

4. OWNERSHIP

4.1 For every Stallion or Mare registered as breeding stock the name and address of the owner of the animal must be lodged with the SSBA. Every change of ownership must be lodged with the SSBA with the official Change of Ownership form signed by both old and new owner of the animal and animal's identity document in which SSBA endorses the new owner.

4.2 This requirement is necessary for the purpose of the administration and in the case of the Broodmare for the recording of the breeder of the foal.

4.3 For the purpose of registration the breeder of the dropped foal is the person or entity registered as such with the SSBA at the time of foaling. The stated breeder must be the same on the Foal Registration Form as lodged with the SSBA.

5. REGISTRATION OF FOALS

5.1 Current Returns

5.1.1 For the produce of a Mare to be registered in the SSB the following must be received from the Breeder:

- a An official Certificate of Covering with:
- name and life number of the Stallion,
 - name and life number of the Mare,
 - the first and last dates of covering in the previous breeding season,
 - the number of the List of covered Mares,
 - the statement signed by the Stallion owner or his authorised agent that all data in the Certificate of Covering is correct and that the Mare was served naturally and that Artificial Insemination, Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation not herein specified, was not used.
- b If the Broodmare was covered by two or more Stallions these certificates must also be received.
- c an official Foaling Report, signed by the Breeder no later than four weeks (28 days) after the foaling, giving the required details of the produce:
- name and life number of the Stallion,
 - name and life number of the Mare,
 - exact date of foaling,
 - colour of the Foal,
 - gender of the Foal,
 - Name of the Breeder of the Foal,
 - country of foaling.

– The statement signed by the Mare owner or his authorised agent that the Foal was not result of Artificial Insemination, Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation not herein specified.

d Twins must be indicated.

e In the event of no live produce the official Foaling Report must still be completed indicating whether the Broodmare was Barren, Aborted Early or Slipped, or that the produce was born dead or has died or the Broodmare has died. In the case of breeding to a Stallion of another breed the Foaling Report must also be returned. Failure to report this information will result in the term “No Return” appearing on the Broodmare’s produce line for that year in the SSB.

f The description of the foal must be recorded by a person authorised by SSBA on an official form provided by the SSBA certifying the Thoroughbred which should include:

- name and life number of the Stallion,
- name and life number of the Mare,
- exact date of foaling,
- colour of the foal,
- gender of the foal,
- three name suggestions for the foal,
- name of the Breeder of the foal,
- country of foaling.

A detailed description both narrative (completed in block capitals) and graphic of permanent and acquired markings of the Foal which should include all leg markings, face markings, hair whorls, scars, tattoos, brands and microchip number, if found, which should be substantiated by physical inspection. A minimum number of identifying features (normally five, usually to include three hair whorls) is required.

MARKINGS SHOULD BE TAKEN BEFORE THE FOAL IS FOUR MONTHS OLD AND AS NEAR TO THIS DEADLINE AS POSSIBLE.

g Blood samples from the Foal, and where necessary, the Broodmare and Stallion, each taken by SBA official at the time of recording the description, the analysis being done in a certified laboratory, to confirm that the Mare and Stallion qualify as the parents of the Foal by DNA typing. The certified laboratory sends all the results of the DNA typing to the SSBA, which archives the data. The data is not public, except when a horse is exported the SSBA will forward the data with the export certificate.

h For produce foaled in 2006 and in subsequent years, implantation with a microchip as an aid to its identification is obligatory. Implantation with a microchip is performed by the SSBA official at the time of recording the description, in the area of the nuchal ligament, mid crest, on the Foal’s left side.

i Confirmation of DNA ng and implantation with a microchip is provided by the animals Passport being signed and dated by SBA official. The microchip number bar code label must be affixed by SBA official to the animals Passport.

j Payment of the foal registration fee.

k The above requirements apply to produce which are registered in their year of foaling.

5.2 Late Returns

5.3.1 For produce whose registration is not sought or completed until after the year of foaling, in addition to the above requirements for current returns, the following will apply.

a the description record of the foal must be supported by at least two (a veterinarian surgeon and a SSBA certified person) independent statements to establish the identity of the produce beyond all doubt.

Blood samples and the markings from the foal and from the mare and Stallion must be taken by the SBA official to confirm that the mare and the Stallion qualify as the parents of the Foal by DNA parentage verification.

b The fee at the then current rate for late foal registration must be paid.

5.3.2 NO APPLICATION TO REGISTER PRODUCE CAN BE CONSIDERED FOR PRODUCE WHICH ARE AGED FOUR YEARS OR OVER AT THE TIME OF APPLICATION.

5.3 Incomplete Returns

5.3.1 Returns which are incorrect or incomplete, or which lack any of the required supporting documentation, cannot be accepted and will be returned to the Breeder for completion.

5.3.2 The rate of fee payable for registration of produce will be the rate in force on the date when the completed return is received.

5.4 Naming

5.4.1 The SSBA registers names fully in accordance with Article 14 of the IABR.

5.4.2 The SSBA keeps a list of protected names.

5.4.3 A Breeder is required to provide three suggestions for names on the Foal Identification Certificate with the same first letter of its dam's name. The SSBA has the final decision in determining whether a name is acceptable for registration.

5.4.4 Names cannot be accepted if either they are already registered subject to the conditions on re-use of names (Art.14.paragraph III of the IABR) or if:

a they appear on the International List of Protected Names,

b they have more than eighteen characters, including signs or spaces,

c they are the name of a public person, without that person's or their family's permission,

d they are followed by numbers,

e they are made up entirely of or include initials, figures, hypensis, full stops, commas, signs, exclamation marks, inverted commas, forward or back slash, colon and semi-colon,

f they are suggestive or have a vulgar meaning, obscene or insulting meaning; names considered in poor taste or names that may be offensive to religious, political or ethnic groups,

g pronunciation or spelling may be thought obscene or insulting, in spelling they are identical to and in pronunciation, identical or similar to a protected name or a name registered for a horse whose year of foaling is within ten years of that of the horse in question,

h they start with an other sign than a letter.

5.4.5 The registered name is recorded in the horse's passport.

6 METHODS OF REPRODUCTION

6.1 A Foal is not eligible to be registered unless:

a. it is a product of a Stallion's mating with a Mare which is the physical mounting of a Broodmare by Stallion with intromission of the penis and ejaculation of semen into the reproductive tract. As an aid to the mating a portion of the ejaculate produced by the Stallion during such mating may immediately be placed in the reproductive tract of the Mare being bred.

b. a natural gestation took place in and delivery was from the body of the Mare in which the foal was conceived.

6.2 No Foal which was conceived by Artificial Insemination or which was the subject of an Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation not herein specified, can be registered in the SSB.

7 REFUSAL OF REGISTRATION

Notwithstanding that a complete return may be made for a Foal, and that the Foal may qualify by DNA typing as being the progeny of its stated parents, the application to register the Foal may be refused either if its reported coat colour is inconsistent with the registered coat colours of its stated parents, or if the reported gestation period of its dam is significantly at variance with generally accepted limits.

8. IDENTIFICATION DOCUMENT - PASSPORT

8.1 A Passport is issued in respect of each horse registered at birth in the SSB. The Passport is the basic identifying document of the animal. This document shows descriptive particulars registered in respect of the animal together with an indication that the horse has been DNA typed and parentage tested and details of implantation with a microchip - microchip number bar code label must be affixed, Breeder, Owner, vaccination, laboratory analysis record, medical treatment and medication control, parentage testing and microchip number.

8.2 The Passport is also a Certificate of Origin but cannot be used to prove ownership. While the information contained is believed to be correct, its accuracy

cannot be guaranteed, in particular where this is dependent on information supplied.

8.3 The Passport is the property of the SSBA and must be returned to the SSBA on demand.

8.4 The SSBA officially endorses the appropriate section of a Stallion's or Broodmare's Passport to confirm that they are registered as breeding stock.

8.5 All entries and changes to Passport can be only made by official persons who must confirm the amendment with a signature and rubber stamp.

8.6 Registered Broodmares can only be covered after the Broodmare's owner shows the Broodmare's Passport to the Stallion's owner. The Stallion's owner must check the Broodmare's identity which he confirms with his signature on the Certificate of Covering.

8.7 Whenever a Broodmare or Stallion changes hands the Passport must be returned to the SSBA for endorsement with details of new owner.

8.8 The SSBA will not accept a return for registration of produce until the actual owner is correctly recorded in the Passport.

8.9 The SSBA should be advised if a horse has acquired markings.

9 RECORDING OF COVERINGS

9.1 The SSBA issues to every registered Stallions owner the following forms for each Stallion:

- a List of covered Broodmares
- b Covering Certificates

9.2 Stallion Owners are required to enter

- a. the List of covered Broodmares with the details of every Broodmare covered with all demanded information. If the Mare is covered by more than one Stallion, this must also be indicated;
- b. the Covering Certificate with the details of the covered Broodmare with all required information and declarations. In particular, if a Broodmare is covered by more than one Stallion, a separate entry must be made for each Stallion.

9.3 Stallion Owners must issue a Covering Certificate to the Owner of each Mare covered by their Stallion.

9.4 Stallion Owners must return to SSBA the completed List of covered Broodmares, completed counterfoils and remaining Covering Certificates by the 30th November.

9.5 If a Stallion Owner does not follow these instructions in particular if he does not return the List of covered Broodmares and the completed counterfoils to the SSBA the Stallion cannot be registered for the next covering season.

10. EXPORTS

The SSBA requires the receipt of a horse's Passport prior to export to endorsement and if horse is to be exported permanently an application for issue of

an Export Certificate along with a current identity certificate and DNA profile or blood type of the horse established by SSBA.

11. DNA TYPING

Only an officially designated laboratory member of ISAG can carry out DNA typing for the SSBA.

12. PUBLICATIONS

The SSB published in full every four years with supplements annually.

SEZNAM PLEMENSKIH KOBIL IN NARAŠČAJA LIST OF BROODMARES AND THEIR PRODUCE

Rejec je pravna ali fizična oseba, ki je lastnik kobile v času žrebitve. Ime rejca je navedeno v zaznamku o žrebetu. Zaznamek "No Return" se vpiše v primeru, ko SSBA ne prejme poročila o žrebitvi ali pa na osnovi prejetega poročila o žrebitvi ni mogoče vnesti drugečnega zaznamka v skladu s Pravilnikom o vodenju rodovniške knjige za angleške polnokrvne konje.

A Breeder is the person or entity who owns the dam when the foal is dropped. The name of the Breeder appears opposite the produce. "No Return" means that either no Return to the covering has been received or that the Return does not comply with the Rules and Requirements of the Slovenian Stud Book

SLOVENSKI NTB REGISTER
2. Zvezek

SLOVENIAN NON-THOROUGHBRED REGISTER
Volume 2

UVOD

PRO Veterinarska fakulteta (Slovenian Stud Book Authority – SSBA) je v času od svoje ustanovitve rodovniške knjige za angleške polnokrvne konje (Slovenian Stud Book – SSB) v letu 1993, registrirala tudi posamezne živali, vpisane v NTB register (non-thoroughbred register). V NTB register so vpisane živali iz posameznih rodovniških knjig oz. posamezne živali, ki ne izpolnjujejo pogojev za vpis v rodovniško knjigo angleških polnokrvnih konj (SSB), zaradi njihove nedokazane polnokrvnost. Registracija teh živali poteka po identičnem postopku kot registracija angleških polnokrvnih konj, vpisanih v SSB.

V slovenski NTB register so lahko vpisani konji angleške polnokrvne pasme:

- ki so vpisani v NTB register druge s strani ISBC priznane rodovniške knjige.
- ki so potomci žrebcev in kobil, vpisanih v slovenski NTB register in
- živali, ki so bile registrirane in vpisane v nekdanji Yugo Stud book, ki s strani ISBC ni bil priznan.

FOREWORD

Since the foundation of the Slovenian Stud book of Thoroughbred horses - SSB The Slovenian Stud Book Authority - SSBA has also registered some NTB horses (non-thoroughbred horses) in separate – NTB register. In NTB register (non-thoroughbred register) animals which can not be registered as thoroughbred horses are recorded. These animals are registered under the same conditions as Thoroughbred horses, entered in SSB.

The Slovenian NTB register can include thoroughbred horses that:

- are registered in other from ISBC recognized Stud Book.
- the produce of stallions and mares included in Slovenian NTB register.
- horses registered and enlisted into former Yugo Stud book, which was not recognized by ISBC.
