UVOD

Združenje rejcev arabskih konj Slovenije je bilo ustanovljeno leta 1992 v tesnem sodelovanju z Veterinarsko fakulteto Univerze v Ljubljani. Leta 1995 so bili vspostavljeni stiki s Svetovno organizacijo za rejo arabskih konj – WAHO in leta 2004 je Slovenija postala polnopravni član te organizacije.

Vse od začetka vodi rodovniško knjigo Veterinarska fakulteta, ki je bila v letu 2006 s strani Ministrstva za kmetijstvo gozdarstvo in prehrano tudi formalno priznana kot rejska organizacija za arabske konje. Pri izvajanju svojih nalog sodeluje z organizacijo rejcev.

Veterinarska fakulteta sprejema in upošteva ter izvaja vsa pravila in predpise WAHO. V rodovniško knjigo za arabske polnokrvne konje so lahko vpisane le živali, ki ustrezajo definiciji WAHO o polnokrvnem arabskem konju.

Vsa žrebata registrirana v tej rodovniški knjigi in njihovi starši imajo od leta 2004 opravljene genetske – DNA preiskave in na osnovi le teh preverjeno poreklo. Preiskave izvaja laboratorij Gene Control GmbH iz Nemčije, ki je član ISAG. Vse postopke registracije izvajajo sodelavci Veterinarske fakultete v skladu s Pravili o vodenju rodovniške knjige za arabske polnokrvne konje.

Veterinarska fakulteta v konjereji že vse od ustanovitve Združenja rejcev arabskih konj Slovenije tesno sodeluje s to organizacijo. Njeno delovanje je v vmesnem času sicer nekoliko zamrlo, vendar so ga vse bolj aktivni rejci ponovno obudili pod novim imenom Združenje ljubiteljev arabskih konj Slovenije. Rejci s svojim sodelovanjem zagotavljajo zanesljivo in tekoče spremljanje rezultatov reje v skladu s standardi WAHO.

Prosimo, upoštevajte, da ISO oznake niso sestavni del imena konja. V tej izdaji se uporabljajo za imenom konja (v oklepaju) in označujejo državo izvora.

Vsi konji, rojeni v Sloveniji ob registraciji dobijo enotna življenjska številka živali (UELN), ki ostane trajno nespremenjena. Enotna življenjska številka je petnajstmestna neponovljiva številka. Prva tri mesta zavzema numerična koda Slovenije »705«, druga tri mesta numerična koda priznane rejske organizacije »001«, sedmo številka pasme »2«, osmo in deveto mesto zadnji dve številki letnice rojstva živali, v preostalih 6 mest pa se kot individualna identifikacijska številka vpiše zaporedna številka registracije živali.

Pri žrebcu, ki je stalno nastanjen v tujini se npr. v primeru uvoza breje kobile znak * uporabi za njegovim imenom in ISO kodo države, kjer je rojen. Npr. navedba žrebca Al Sakbe (FR)* označuje, da žrebec ni registriran v tem zvezku Rodovniške knjige SSBA.

Posebna zahvala za naše uspešno delo gre sodelavcem WAHO in vsem članicam WAHO s katerimi od ustanovitve rodovniške knjige za arabske konje sodelujemo.

Pričujoča rodovniška knjiga zajema obdobje 2009 do 2019 in vključuje osem naknadnih registracij konj, sedem uvozov žrebet v maternici in štiri uvoze ženskih živali, ki niso bile vključene v objavo Zvezka 2.

FOREWORD

The Slovenian Arab Horse Breeding Association was founded in 1992 in close collaboration with the Veterinary faculty of the University of Ljubljana. By 1995 the contacts with the World Arabian Horse Organization (WAHO) were established and in 2004 Slovenia became a full member.

From the beginning Veterinary faculty acts as Slovenian Stud Book Authority. In 2006 Veterinary faculty was formally approved as breeding organization for Arab horses, performing her tasks in collaboration with breeders organization.

Veterinary faculty accepts and implements all rules and regulations of the World Arabian Horse Organization. Only horses that comply with the WAHO Definition of a Purebred Arabian Horse are eligible to be registered in the Slovenian Stud Book of Arab Horses (SSBA).

All foals registered in this stud book are parentage tested. From 2004 DNA testing is performed by Gene Control GmbH in Germany, a member of ISAG. All proceedings of registration are carried out by the Veterinary faculty in accordance with the rules and requirements of SSBA.

The Veterinary faculty has since its inception (and this will continue) liaised closely with Slovenian Arab Horse Breeding Association. In the meantime, its operation has somewhat subsided, but it has been revived by more and more active breeders under the new name Association of Arabian Horse Lovers of Slovenia. All the time the breeders has assisting in ensuring that the recording of breeding results has been undertaken to the WAHO standard.

Please note that ISO Codes do not form part of the registered name of the horse. In this volume they have been used (in parenthesis) after the horse's name to indicate the country of origin.

All horses born in Slovenia receive a unique animal life number (UELN) at registration, which remains permanently unchanged. Each UELN is a 15-digit alphanumerical unique number. The first three digits »705« are for the numerical designation for Slovenia, the next three digits »001« are for the recognized breeding organization, the seventh digit »2« is for the breed, the eight and ninth digits are the last two digits of the year of birth of the horse, while the remaining 6 digits represent the individually identified registration number of the animal.

If a stallion is domiciled overseas, as in the case of sires of imports in utero and foals produced by the use of imported semen, the sign * is used after the stallion's name with his country of birth ISO Code. For example Al Sakbe (FR)*, to denote that the particular stallion is not registered in this Stud Book SSBA.

We express our gratitude to the WAHO officials who advise us and also to those other WAHO members who collaborate with us since the establishment of Slovenian Stud Book of Arab Horses.

This Stud Book covers the period from 2009 to 2019 and includes 8 late registrations, 7 foals imported in utero and 4 imported females which were all pending at the time of publication of Volume 2.

IZJAVA

Priznana rejska organizacija v konjereji sodi, da so podatki vpisani v to rodovniško knjigo pravi, vendar ne sprejema odgovornosti za morebitne manjkajoče pomanjkljive ali napačne podatke.

Rejce in lastnike konj prosimo, da vpise svojih kobil in njihovega potomstva in o morebitnih napakah obvestijo PRO v konjereji, ki bo v naslednjih izdajah Rodovniške knjige za arabske polnokrvne konje opravila potrebne popravke.

DISCLAIMER

The Slovenian Stud Book Authority believes the contents of this Volume of the Slovenian Stud Book of Arab Horses to be correct, but does not accept any responsibility or liability for any inaccuracies, omissions or otherwise therein.

Breeders and owners are requested to examine the entries of their mares and produce and to notify the Slovenia Stud Book Authority of any errors in order that these may be corrected.
