The school offers education free of charge in a modern university campus at outskirts of Cracow, a historical capital of Poland.

We also offer:

- ✓ **scholarships for all PhD Students**
- ✓ an opportunity to conduct interesting research, often within international projects
- ✓ possibility for financing academic trips and internships
- ✓ option to apply for own financing for research and travel
- ✓ space for dialogue and participation in the School's operations and development
- ✓ partner relations between PhD students and academic staff
- ✓ at the application stage, the Master Degree is not required

*Campus*

*Interior of the Faculty of Mathematics and Computer Science*

The core element of education at the School is intensive scientific research resulting in publications in esteemed international journals.

A large part of this work is carried out in the International teams. Friendly atmosphere and informal communication between students and their mentors is an important part of the education process.
