## UVOD

V sodelovanju z Republiško strokovno službo v konjereji (RSS) je bilo leta 1992 ustanovljeno Združenje rejcev arabskih konj Slovenije. RSS je s strani Ministrstva za kmetijstvo gozdarstvo in prehrano pooblaščen za vodenje rodovniških knjig in izvajanje rejških programov za vse pasme konj v Sloveniji.

Ker je tradicija reje arabskih konj v sloveniji skromna in je bilo v času ustanovitve Združenja rejcev arabskih konj Slovenije število arabskih konj izjemno majhno, je bilo za ustanovitev rodovniške knjige potrebno kar precej časa. Že v letu 1995 so bili vzpostavljeni stiki s Svetovno organizacijo za rejo arabskih konj - WAHO. Kot kandidati za članstvo v tej organizaciji smo privzeli vse zahteve glede ustanovitve in vodenja rodovniške knjige za arabske konje.

RSS v konjereji sprejema in upošteva ter izvaja vsa pravila in predpise WAHO. V rodovniško knjigo za arabske polnokrvne konje so lahko vpisane le živali, ki ustrezajo definiciji WAHO o polnokrvnem arabskem konju.

Preden sta žrebec ali kobila vpisana v SSBA kot plemenska žival, je potrebno ugotoviti - potrditi njegovo/njeno istovetnost. V primeru, ko gre za uvoženo žival, rojeno v tujini, je potrebno pridobiti Izvozno potrdilo države, v kateri je bila žival rojena. Izvozno potrdilo pridobi RSS od pristojne organizacije države v kateri je bila žival rojena, oziroma države iz katere je bila uvožena. Podatki, zavedeni v Identifikacijski dokument (Passport) morajo biti istovetni podatkom, zavedenim v Izvozno potrdilo. Izvozno potrdilo SSBA trajno (oziroma do ponovnega izvoza živali) deponira.

Vsa žrebeta registrirana v tej rodovniški knjigi imajo opravljene preiskave na krvni tip in na osnovi le teh preverjeno poreklo. V kratkem bomo za preverjanje porekla privzeli genetske – DNA preiskave v skladu z navodili laboratorija, ki je včlanjen v ISAG. Vse postopke registracije izvaja RSS v konjereji v skladu s Pravili o vodenju rodovniške knjige za arabske konje.

RSS v konjereji že vse od ustanovitve Združenja rejcev arabskih konj Slovenije tesno sodeluje s to organizacijo in to sodelovanje se bo v prihodnosti nedvomno še poglobilo. Rejci so s svojim sodelovanjem zagotovili zanesljivo in tekoče spremljanje rezultatov reje v skladu s standardi WAHO.

Prepričani smo, da bo mednarodno priznavanje slovenske rodovniške knjige za arabske konje spodbudilo zanimanje za rejo arabskih konj v Sloveniji in neposredno vplivalo na število in izboljšanje kvalitete pri nas zrejenih živali.

Posebna zahvala za naše uspešno delo gre sodelavcem WAHO, ki so nam s svojimi nasveti in tesnim sodelovanjem pomagali pri ustanavljanju rodovniške knjige. Zahvaljujemo se še vsem tistim članicam WAHO, ki so naše napore kakorkoli podprle.

mag. Janez Rus, dr.vet.med.

## FOREWORD

The Slovenian Arab Horse Breeding Association was founded in 1992 with the help of and in collaboration with the National Horse Breeding Service. The National Horse Breeding Service, which is controlled by the Ministry of Agriculture, Forestry and Nutrition, is responsible for the maintenance of the stud books and for carrying out the breeding programmes for all horses bred in Slovenia.

Because Slovenia has only a minor tradition in Arab horse breeding and only a few Arab horses were to be found in our country at that time, it took us quite a long time to establish a stud book. However, by 1995 the contacts with the World Arabian Horse Organization (WAHO) were established and as an Applying Member we have since that time adopted all the necessary requirements of WAHO concerning establishment and keeping of a stud book.

The National Horse Breeding Service accepts and implements all rules and regulations of the World Arabian Horse Organization. Only horses that comply with the WAHO Definition of a Purebred Arabian Horse are eligible to be registered in the Slovenian Stud Book of Arab Horses (SSBA).

Before any Stallion or Mare can be registered as breeding stock the animal's identity must be established. In the case of imported animals an Export Certificate must be received from the Stud Book Authority of the animal's country of origin. A current registration certificate or passport is required for checking against the export certificate.

All foals registered in this stud book are bloodtyped and parentage tested. We will be switching to DNA in the near future in accordance with laboratory protocols. The laboratory used is a Member of ISAG. All proceedings of registration are carried out by the National Horse Breeding Service in accordance with the rules and requirements of SSBA.

The National Horse Breeding Service has since its inception (and this will continue) liaised closely with Slovenian Arab Horse Breeding Association which has assisted in ensuring that the recording of breeding results has been undertaken to the WAHO standard.

The granting of full Registering Authority Membership of WAHO will we trust stimulate further interest in breeding Arab horses in Slovenia with a consequent improvement in the resident breeding stock.

We express our gratitude to the WAHO officials who have advised and supported us in establishing our Stud Book for their assiduous contribution and also to those other WAHO members who have helped us so willingly.

mag. Janez Rus, dr.vet.med.
