UVOD

Združenje rejcev arabskih konj Slovenije je bilo ustanovljeno leta 1992 v tesnem sodelovanju z Veterinarsko fakulteto Univerze v Ljubljani. Leta 1995 so bili vpostavljeni stiki s Svetovno organizacijo za rejo arabskih konj – WAHO in leta 2004 je Slovenija postala polnopravni član te organizacije.

Vse od začetka vodi rodovniško knjigo Veterinarska fakulteta, ki je bila v letu 2006 s strani MKGP tudi formalno priznana kot rejska organizacija za arabske konje. Pri pri izvajanju svojih nalog sodeluje z organizacijo rejcev.

Veterinarska fakulteta sprejema in upošteva ter izvaja vsa pravila in predpise WAHO. V rodovniško knjigo za arabske polnokrvne konje so lahko vpisane le živali, ki ustrezajo definiciji WAHO o polnokrvnem arabskem konju.

Vsa žrebata registrirana v tej rodovniški knjigi in njihovi starši imajo od leta 2004 opravljene genetske – DNA preiskave in na osnovi le teh preverjeno poreklo. Preiskave izvaja Laboratorij Gene Control GmbH iz Nemčije, ki je član ISAG. Vse postopke registracije izvajajo sodelavci veterinarske fakultete v skladu s Pravili o vodenju rodovniške knjige za arabske konje.

Veterinarska fakulteta v konjereji že vse od ustanovitve Združenja rejcev arabskih konj Slovenije tesno sodeluje s to organizacijo. Rejci so s svojim sodelovanjem zagotovili zanesljivo in tekoče spremljanje rezultatov reje v skladu s standardi WAHO.

Prosimo, upoštevajte, da ISO oznake niso sestavni del imena konja. V tej izdaji se uporabljajo za imenom konja (v oklepaju) in označujejo državo izvora.

Pri žrebcu, ki je stalno nastanjen v tujini se npr. v primeru uvoza breje kobile znak * uporabi za njegovim imenom in ISO kodo države, kjer je rojen. Npr. navedba žrebca Honorrs (US)* označuje, da žrebec ni registrirano v tem zvezku Rodovniške knjige SSBA.

Posebna zahvala za naše uspešno delo gre sodelavcem WAHO in vsem članicam WAHO s katerimi od ustanovitve rodovniške knjige za arabske konje sodelujemo.

Pričujoča rodovniška knjiga zajema obdobje 2004 do 2008 in vključuje štiri naknadne registracije konj, ki so bile nerešene času objave Zvezka 1 (Vol. 1 p. 36).

FOREWORD

The Slovenian Arab Horse Breeding Association was founded in 1992 in close collaboration with the Veterinary faculty of the University of Ljubljana. By 1995 the contacts with the World Arabian Horse Organization (WAHO) were established and in 2004 Slovenia became a full member.

From the beginning Veterinary faculty acts as Slovenian Stud Book Authority. In 2006 Veterinary faculty was formally approved as breeding organization for Arab horses, performing her tasks in collaboration with breeders organization.

Veterinary faculty accepts and implements all rules and regulations of the World Arabian Horse Organization. Only horses that comply with the WAHO Definition of a Purebred Arabian Horse are eligible to be registered in the Slovenian Stud Book of Arab Horses (SSBA).

All foals registered in this stud book are parentage tested. From 2004 DNA testing is performed by Gene Control GmbH in Germany, a member of ISAG. All proceedings of registration are carried out by the Veterinary faculty in accordance with the rules and requirements of SSBA.

The Veterinary faculty has since its inception (and this will continue) liaised closely with Slovenian Arab Horse Breeding Association which has assisted in ensuring that the recording of breeding results has been undertaken to the WAHO standard.

Please note that ISO Codes do not form part of the registered name of the horse. In this volume they have been used (in parenthesis) after the horse's name to indicate the country of origin.

If a stallion is domiciled overseas, as in the case of sires of imports in utero, the sign * is used after the stallion's name with his country of birth ISO Code. For example Honours (US)*, to denote that the particular stallion is not registered in this Stud Book SSBA.

We express our gratitude to the WAHO officials who advise us and also to those other WAHO members who collaborate with us since the establishment of Slovenian Stud Book of Arab Horses.

This Stud Book covers the period from 2004 to 2008 and includes 4 late registrations which were pending at the time of publication of Volume 1, (see Vol. 1 p. 36).
